

# Light boxes

## An illuminated message makes you more visible

A light box is a great way to make sure your message stand out. An illuminated visual becomes much more visible, especially in busy locations. Your visual is printed on fabric (with dye sublimation technique) and is lit up from the inside with LED lights.

Available as free-standing, for wall or ceiling.

## LED with great light distribution

The lightbox is backlit by LED lights, placed in the top and bottom. The LED is homogeneously diffused throughout your visuals. In addition, LED means low energy consumption.

## Easy to set up

You set it up easily with an Allen key as your only tool.

## Sizes

Available in different sizes. Can be ordered both single and double-sided.

Free-standing

on the wall

from the ceiling

### Single-sided

### Double-sided
