

# How to mount graphic - roll-ups

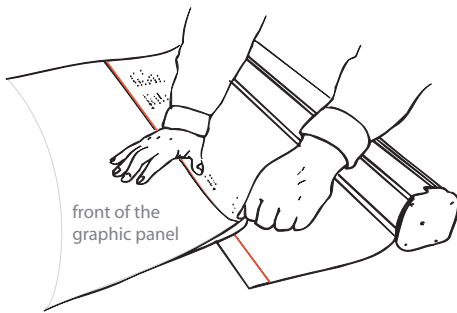

1. Use our profile opener or a flat blade screwdriver.

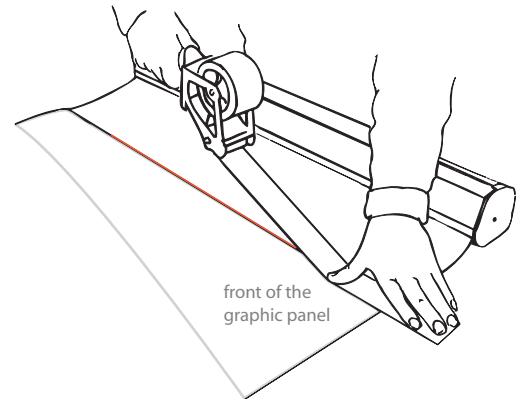

2. Slide the profile onto the graphic.

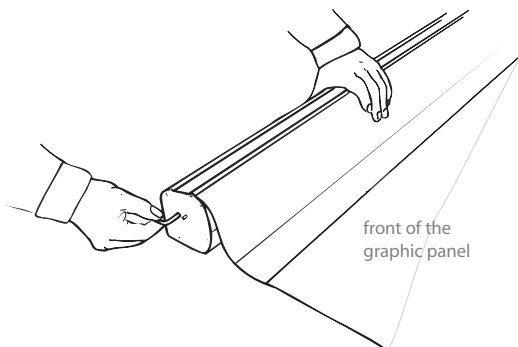

3. Press on the profile to snap it onto the graphic.

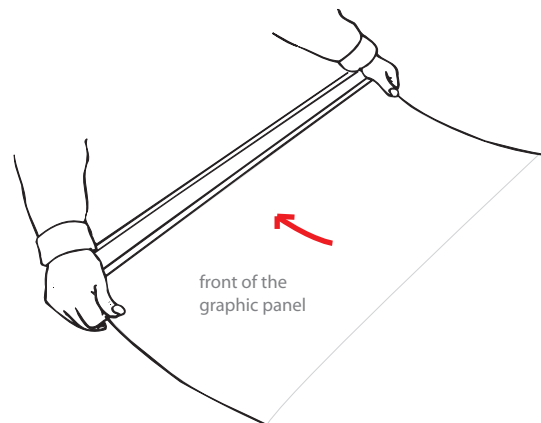

4. Remove the protective film. Apply the graphic with picture side upwards and position along the red line.

5. Apply a packing tape over the joint.

6. Grip the graphic and cassette with the left hand. Remove the locking pin with the right hand.  
**THE MECHANISM IS NOW ACTIVATED**

7. With your hands, slowly allow the graphic panel to retract into the base.
