

# Expand MediaSquare

Bring your message to your target audience.

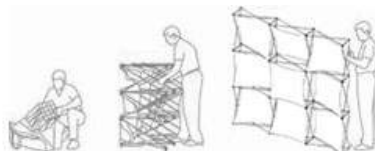

## Expand MediaSquare

The Expand MediaSquare lets you communicate your message clearly and effectively. Your image is printed on fabric that easily attaches to the frame. When you set it up, your image is automatically stretched into place, creating an eye-catching 3-Dimensional display. Several sizes are available depending on which configuration best fits your graphics needs. When needed, the graphics can easily be changed.

The Expand MediaSquare consists of the same lightweight, modern frame as the Expand MediaWall. It is one of the lightest image walls on the market, making it extremely portable and easy to set up. Because it uses the same frame as the Expand MediaWall, you can easily transition between the 2 products. Simply add pegs to the Expand MediaWall frame to convert it into the Expand MediaSquare!

Width: 30 15/16", 60 3/8", 89 7/8", 119 1/4" or 148 7/8"  
(78, 153, 228, 303, or 378 cm)

Height: 89 7/8" (228 cm)
