

Expand PodiumCase Backlit

A backlit counter creates extra attention

The counter Expand PodiumCase Backlit gives your message an extra glow wherever you are - at an exhibition, a shopping mall, or at other events where you meet your clients and prospects.

It also works as a focal point - something for the people to put their attention to.

To make the counter light up you just put the LED wrap under your graphic and plug it into electricity.

All you need to know about the counter

- Lights up with LED lights
- Comes with a white wrap, a LED wrap and a graphic wrap - where you can communicate your message
- The wraps (graphic, LED and white) are delivered in a black nylon bag
- The table top is available in different colours: birch, aluminum, oak, black and white
- Four detachable shelves on the inside are available as an accessory
- Both stable and durable

A transport bag on wheels

Not only is it a brilliant counter, you can also use it as a transport bag on wheels, where you can pack all your event material, or a backwall.
